PROFESSIONAL SUMMARY

Proactive Software Engineering undergraduate with hands-on experience in software development using Java, Spring Boot, React, and SQL. Strong foundation in Object-Oriented Programming, Data Structures & Algorithms, RESTful APIs, databases, software architecture, and SDLC through academic and team projects. Experienced in developing web applications, implementing authentication and authorization, debugging, testing, and collaborating through Git-based development. Seeking a Software Engineering Internship to apply technical skills, strengthen software engineering practices, and contribute to real-world software solutions.

TECHNICAL SKILLS

Programming:	Java, JavaScript, SQL, Python, C#, PHP
Backend:	Spring Boot, RESTful APIs, Node.js, ASP.NET Core
Frontend:	React.js, HTML, CSS, Bootstrap
Database:	MySQL, PostgreSQL, SQL Server
Tools:	Git, GitHub, Postman, Swagger, Figma
Concepts:	OOP, Data Structures & Algorithms, Software Architecture, SDLC, Agile Development

SELECTED TECHNICAL PROJECTS

NexaERP – Java, Spring Boot, React, PostgreSQL [GitHub] / [LiveDemo]	Jul 2026
- Contributed to an 11-module ERP system, developing business functionality using Java, Spring Boot, React, and PostgreSQL. - Developed the HR & Payroll module, covering employee, leave, salary, and payroll management. - Implemented RESTful APIs, validation, database operations, JWT authentication, and role-based access control. - Collaborated on module integration, database migrations, debugging, and Git-based development.	
NextStep – Java, Spring Boot, React, MySQL [GitHub]	Jan 2026
- Developed a full-stack university platform for logistics, shuttle tracking, and resource management. - Built RESTful APIs and integrated a MySQL relational database with the React frontend. - Implemented backend services, relational data management, and frontend-backend integration. - Applied software architecture and Git-based collaborative development practices.	
HirePath AI – ASP.NET Core, React, SQL Server [GitHub]	Jul 2026
- Contributed to a recruitment platform for managing candidates, skills, experience, resumes, and job searches. - Developed RESTful APIs and application functionality using ASP.NET Core 8, Entity Framework Core, and SQL Server. - Implemented API integration, validation, error handling, debugging, and workflow testing. - Applied layered architecture, Repository/Service patterns, JWT authentication, and Git.	
SpareHubLK – PHP, MySQL, HTML, CSS [GitHub]	Oct 2025
- Developed a web-based automotive parts e-commerce application using PHP, MySQL, HTML, and CSS. - Implemented product management, user management, search functionality, and CRUD operations. - Designed relational database operations and optimized queries for efficient data retrieval.	

EDUCATION & CREDENTIALS

BSc (Hons) in Software Engineering (UG) – NSBM Green University	Feb 2025 – Present
Coursework includes Software Development, Object-Oriented Programming, Data Structures & Algorithms, Database Systems, Software Architecture, and Software Engineering.	

PROFESSIONAL EXPERIENCE

DAMRO Group – Payroll & HR Clerk	Mar 2024 – Mar 2025
▪ Processed employee payroll and attendance data with a strong focus on accuracy and data integrity.	
▪ Used Excel and internal systems to analyze data and prepare management reports.	
▪ Identified and resolved data inconsistencies to improve reporting accuracy and reliability.	
▪ Maintained confidential employee records and collaborated with HR teams to support employee and payroll processes.	

CERTIFICATIONS

Python for Beginners – University of Moratuwa & DP Education	Apr 2024
▪ Developed foundational skills in Python programming, algorithmic thinking, and problem-solving.	
Web Design for Beginners– University of Moratuwa & DP Education	Dec 2025
▪ Gained foundational knowledge of web development, responsive design, and frontend development.
